DETAILED ACTION

This office action is in response to the request for reconsideration filed November 15, 2006. The arguments therein are persuasive. Claims 1-6 are pending (claim 7 previously canceled).

Allowable Subject Matter

1. Claims 1-6 are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Dawson-Elli '527; Stepanov et al. '725) does not teach or reasonably suggest, in *combination*, the specific claimed structural elements of sole independent claim 1 (claims 2-6 being directly dependent upon claim 1) in which the support frame (with bottom surface, 1st and 2nd sidewalls), lever arm, pivot point with rotational capabilities, optical fiber grating, and expansion element with particular high coefficient of thermal expansion are located and arranged as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

2. Applicant's arguments, see request for reconsideration, filed November 15, 2006, with respect to claims 1-6 and the rejections under both 35 U.S.C. 102(b) and 35 U.S.C. 103(a) to Dawson-Elli '527 have been fully considered and are persuasive. The rejections of claims 1-6 have been withdrawn.

Art Unit: 2874

3. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the *finality of that action is withdrawn*.
